## **Many Christmas Long Distance calls** will be delayed

We simply do not have enough long distance lines to handle at a moment's notice all the calls that flood our offices after important war broadcasts, and after 7 p.m. on almost any evening nowadays.

It is as if thousands of citizens in every community appeared at the railroad station at the same hour, hoping to catch the same train.

Even before the outbreak of war we had foreseen that delays inevitably would occur on Christmas Eye and Christmas Day. Now it appears the volume of calls will be even heavier than we had an-

We have done and are doing all we can to make ready for these big rushes, but they are setting alltime records. Thousands of conversations vital to the Army and Navy-vital to the defense of this nation-go over the telephone lines each day, each night. Some of them may delay your calls. We are sure you understand. We appreciate your co-operation, your patience.

## ROBERT USED HIS JUDGMENT

John and Robert both read the SAME NEWSPAPER. But they don't read it in the SAME WAY. Robert reads it with JUDGMENT; separating the FACTS from the OPINIONS, using BOTH to give him the information he needs in his daily life. John CONFUSES fact and opinion, even though they are usually quite clearly labeled.

One day their paper said, "Mr. Kerkekogi, Siberian novelist, told our reporter yesterday that all men should walk on their hands and knees. He said that was the healthiest position for human beings."

When Robert read this, he thought. "So that is Mr. Kerkekogi's OPINION. is it? And what does a NOVELIST know about such things anyway? It sounds SILLY to me," and he went to his office

ON THE BUS, as he always did:

But John accepted Mr. Kerkekogi's opinion as a FACT and when he got to his office everybody laughed.

11

Don't think this is such a ridiculous happening. Many people have confused fact and opinion before. It's a very human thing to do—but not SAFE in times like these.

You will read both FACTS and OPINIONS in your newspaper. It brings you both every day because your newspaper's JOB is to bring you ALL the news, to report honestly and accurately about what is going on in the world, without thinking of whether you like or dislike the news it reports:

Almost always your newspaper makes it clear which part of the news is FACT, which part OPIN-ION. After that, it is up to you to put your judgment to work separating the facts from the opinions, boiling both down into the INFORMATION you must have if you are to vote intelligently, know what to buy and where to buy it—be a self-governing citizen of a democratic country.

In Germany, Italy, Russia, Japan, a government agency decides what the people shall read and hear. Not so in America. Do your part to preserve the American way of life.

Read, each Tuesday in this space, the messages about your liberty and how America's newspapers help you defend it. Your letters of comment will be appreciated by the editor and by this committee .- Newspaper Publishers Committee, 420 Lexington Avenue, New York City.
